Pre-K or K

- **Pre-K**

- With my pre-kindergartners I use circle maps as a teacher directed center. On the day when center work includes the circle map we make our own circle map in morning meeting as a group. I draw the circle map just as it appears on their work. Then we brainstorm a list of things that begin with the week's focus letter. I illustrate and label what my students come up with. Then when they get to their circle map center they already have an idea of what belongs and what doesn't.

- **Kindergarten**

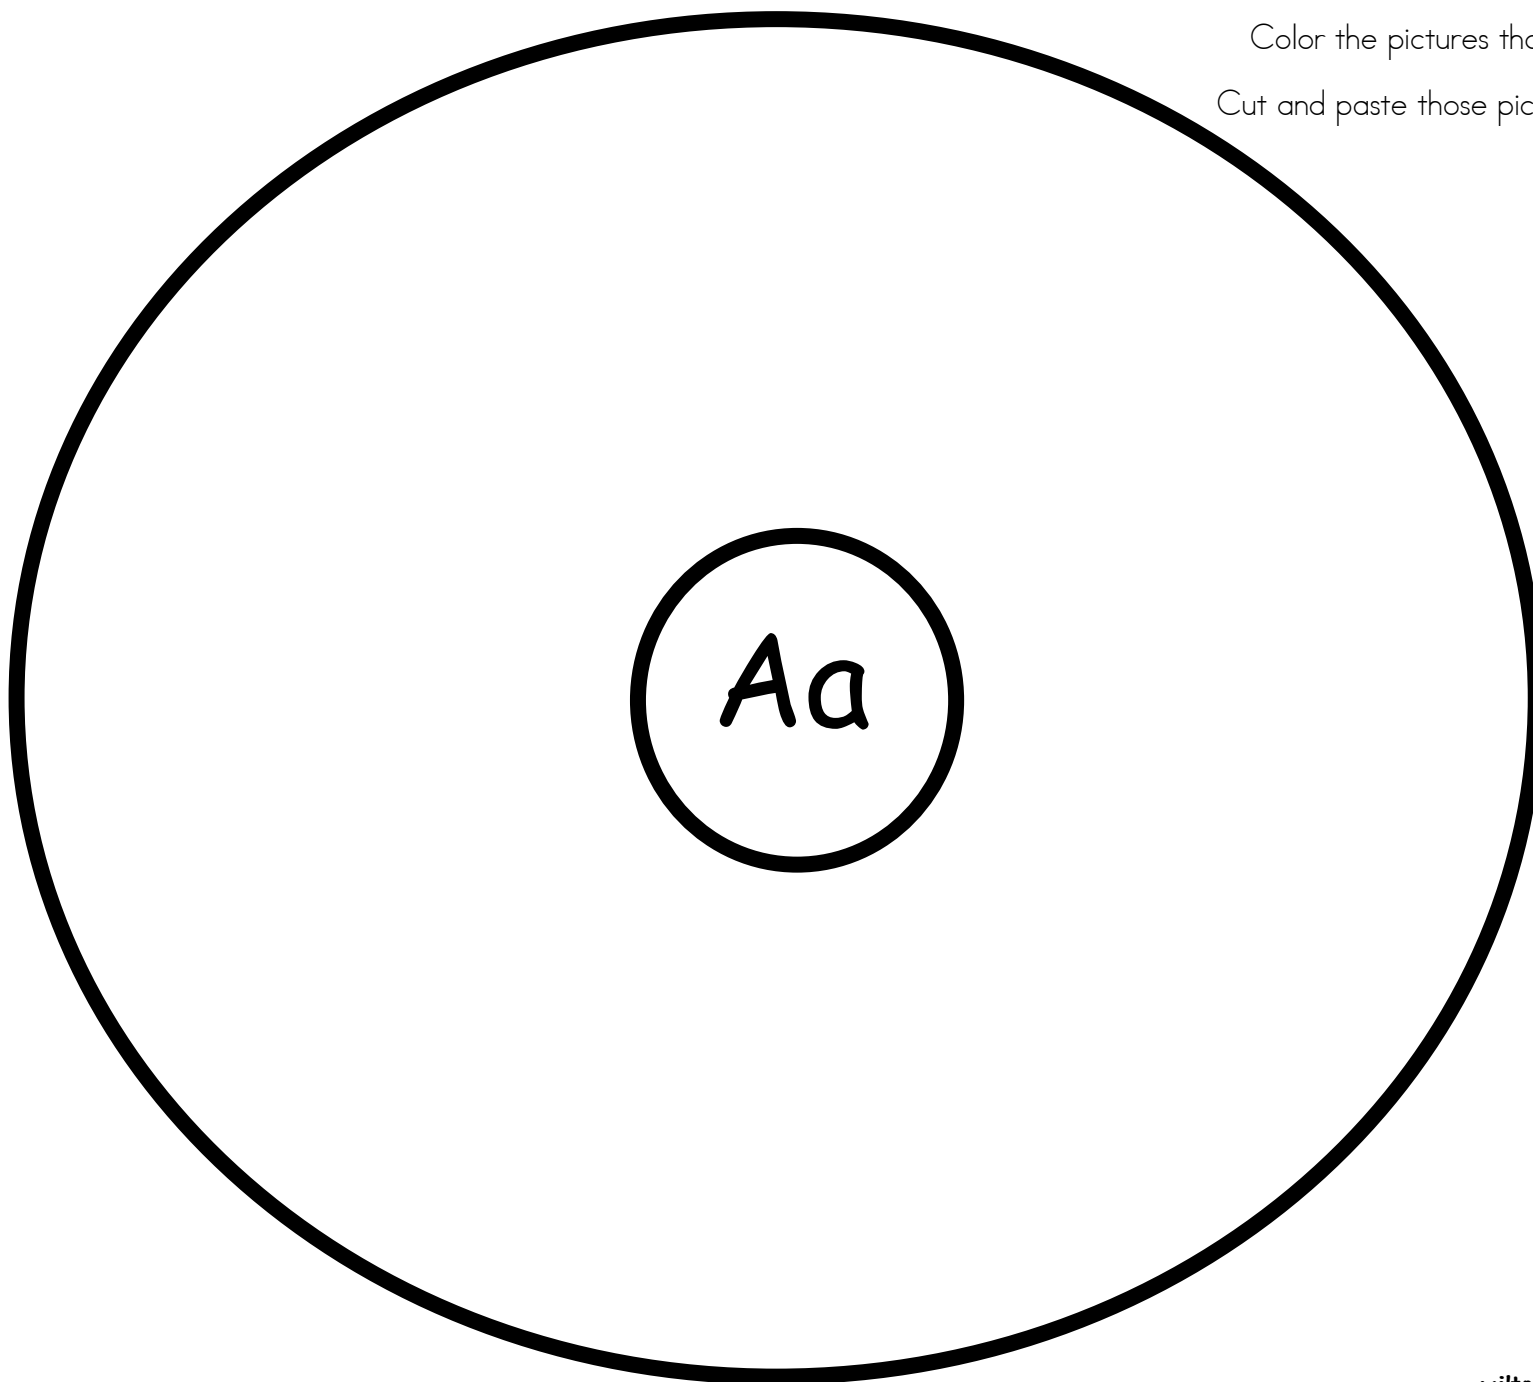

- With my kindergartners I use the circle maps as a self directed center. I introduce the circle map at large group exactly like I do with my pre-kindergartners. The only piece I add is I specifically go over the picture names on their work before they are released to their center.
